DETAILED ACTION

1. Claim 1 is allowed.
2. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or suggest, inter alia, a switching regulator comprising: a first circuit block for outputting a signal that varies depending on a resistance value; a second circuit block having a square wave oscillator for outputting a signal based on the square wave oscillator and an output signal of the first circuit block; a third circuit block having a logic circuit for receiving the output signal of the square wave oscillator and the output signal of the second circuit block, and a circuit for outputting an output signal which is controlled based on an output of the logic circuit; a comparator for receiving an output of the error amplifier and the output signal of the third circuit block.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 6,229,293 Farrenkopf discloses a DC to DC converter with an
